

## Instructions

### What you need

1. This pdf file, a colour printer and plain paper
2. BluTack, Glue dots or a glue stick with paper clips to hold while glue dries
3. Optional - Take away chinese box

### Instructions

1. Print the document double sided so you end up with green on one side and the matching cartoon on the other (Note, if printing this file, start the double sided printing from page 2 so that the images line up correctly).
2. Cut out the pieces from the coloured cartoon side (the cookie should line up front and back, but if the printer is slightly misaligned, the green circle has been made slightly bigger to compensate). If you can't do duplex printing, you can either have a white cookie, or stick the pieces together (but this may make cookie making a bit harder due to the stiffness of the paper).
3. Use the following instruction sheet to fold your cookie.
4. [http://hamblyscreenprints.typepad.com/screen\\_prints\\_blog/2010/02/paper-fortune-cookie-tutorial.html](http://hamblyscreenprints.typepad.com/screen_prints_blog/2010/02/paper-fortune-cookie-tutorial.html) Note, BluTack or a glue stick and paperclips to hold while it dries works too
5. Place cookies in a bowl for a healthy snack. Alternatively, you can use the pictures below and stick them onto a clean take away chinese box and give the gift of humour to that someone special

Front label for take away box - optional - two to choose from

#### BILL & BEN INTERGALACTIC FORTUNE COOKIES

##### INGREDIENTS
