Materials

- 3 tin cans
- Colour printer
- Paper or light card
- PVA glue or similar
- Scissors / cutting knife
- Hammer and small nail
- Tea light candle and matches
- Black permanent marker

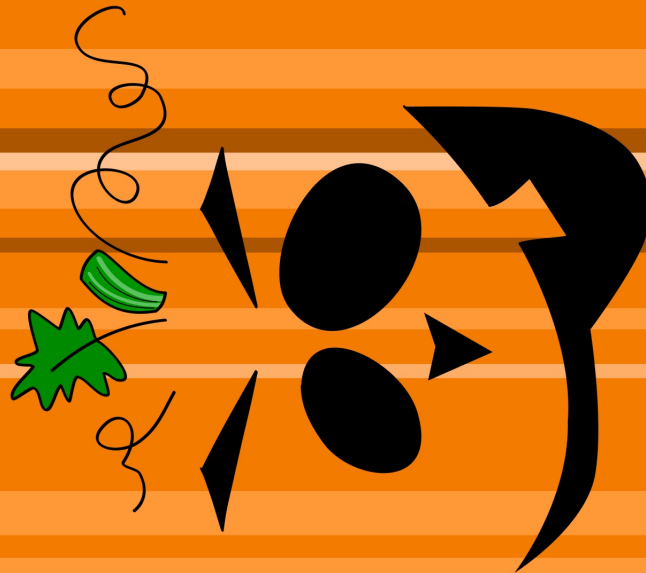

Instructions

1. **Print from page 2** onto A4 card/paper. Use **borderless** setting so print will fit snugly to the height of a standard tin (10.3 cm). I used cheap gloss photo paper for a shiny finish.
2. **Cut** and **glue** onto a clean and empty tin can.
3. Once glue has dried, use a **hammer** and **nail** to pierce in some tiny holes that outline the face. If the paper tears slightly, you might need to touch up the face with the black marker.
4. **You're now ready to go!** Place a candle in the tin and light. **Sit back** and watch the **magic of Halloween** begin.

Warning The tin can gets hot very quickly. So be careful when picking it up!
